FIFTY-FOURTH DAY'S PROCEEDINGS. ELECTION OF JUDGES-SPECIAL WEDNESDAY, Feb. 11, 1874. TAX BONDS .- We republish to day an article from the Wilmington Jour-The Senate met at the usual hour, Lieut. Gov. Brogden in the Chair. nal on the election of Judges next August to fill vacancies in the Judi-Prayer by Rev. A. W. Mangum, of the Methodist Church.

cial Department. We learn with regret that the House of Representatives has stricken out the clause providing for the election of two Supreme Court Judges from

election act. The people have the right to elect; their right fortunately does not depend on the action of the Legislature; their right is found in the Constitution.

The people will doubtless exercise their right in August wheth r the Legislature provides for the election or not. And we are happy in be-lieving that August next will witness two good Conservative Judges on Supreme Court Bench. who, our agreeing with Judge Pearson, will without doubt declare the inquitous special tax bonds void and unconsti-

By this means we hope for relief against the burdens that the present Court have denided the people of North Carolina.

their camp was taken up.

Mr. Gudger moved to amend by striking out the words "leaving of camp fires." Adopted. The substitute as amended passed.

On motion of Mr. Seymour, the pulse were suspended and the bill A CORRECTION.—The following letter will show how we unintentionally did an injustice to Mr. Hanner, oue of the able and zealous Representative from Chatham county. The letter explains itself, and we cheerfully give it publication:

HOUSE OF REPRESENTATIVES, RALEIGH, N. C., Feb. 11th, 1874.

Editors News: Gentlemen: I see from your report of the House proceedings on yesterday that you record me as voting in the negative on the bill to submit to a vote of citizens of townships the question of the prohibition of the sale of liquors, &c. I was not in the House when the vote was taken, but am strongly in favor of said bill, and should have voted aye, had I been Yours,
Repectfully, &c.
O. A. HANNER. present.

LEGISLATURE OF NORTH CAR- Guilford, the rules were suspended and the bill concerning the general election law, was taken up.

Mr. Troy offered an amendment which was adopted.

Mr. Price offered the following

"That if the Governor shall refuse to issue his commission to any Judge elect, in this State, as is provided by law, then it shall be the duty of any Judge of this State to administer the oath of office to any such Judge, upon production of certificate of evidence of his election. Adopted.

The bill then passed, as amended, its third reading.
On motion of Mr. Smith, the rules were suspended and the bill to incorporate the Oxford and Henderson Railroad Company passed its several

were suspended and the bill for the

Introduction of Bills. By Mr. Troy, a bill to provide for the better collection of fines, forfeitures and penalties. Referred.

Special Order. At 1 o'clock the further consideration of the Revenue Bill was resumed, and considered as a whole on its third reading. Several amendments were adopted. The bill then passed its third and last reading by the following vote: Ayes 29, nays 16.
The Senate then adjourned until 71 o'clock this evening.

HOUSE REPRESENTATIVES. At 10:30 o'clock, Mr. Speaker Rob inson called the House to order. Journal of yesterday read and approved.

Several petitions were presented and properly disposed of. Messrs. Brown, of Mecklenburg, Presson, Bennett, Marler, Richard-son, Waugh, Anderson, of Davie, and Bryson, of Swain, submitted reports from several Standing Committees. By Mr. Michael, a bill prohibiting the sale of liquor within one mile of certain churches in Davidson county.

By Mr. Houston, a bill for the encouragement of Agriculture and Immigration. Referred.

By Mr. Marler, a bill establishing a road from Salisbury to Mount Airy.

Referred. By Mr. Stanford, a bill re-enacting the bill establishing the county of Lillington. Referred. By Mr. Costner, a bill to secure

costs in appeals from Justices of the Peace. Referred. Mr. Maxwell, from the Joint Select Committee to investigate the expenditures of the Insane Asylum, submitted a report, which was read and ordered to be transmitted to the Senate with a proposition to print.

By Mr. Waugh, a resolution raising a select Committee to investigate the books of the State Geologist in regard to the alleged overdrawing during the last six years. Calendar. By Mr. Bennet, a bill in reference to hotel keepers. Referred. On motion of Mr. McGehee, the

bill in relation to the sale of certain public lands in and near the city of Raleigh, was taken up. (The bill appoints George Davis, of Wilmington, L. M. McCorkle, of Catawba and Richard Battle, Jr., of Raleigh, Commissioners to sell all the State lands in and near the city of Raleigh, with the exception of the grounds of the charitable institutions, Governor's Mansion, St. Augustine Chapel and Capitol Square, the proceeds to be invested in United States bonds for the benefit of the University of North

Carolina.) Mr. Brown, of Davidson, could not see why any special favor should be shown to the University of North Carolina over other institutions in the State, etc.

Mr. McGehee took the floor in advocacy of the bill. He had heard so many objections to measures from the gentleman from Davidson, (Mr. Brown), which proceeded from caprice, that he (Mr. McGehee,) could not now express surprise at this op-position. Mr. McGehee then proceeded to mention some of the distinguished men the Univiversity had given not only to the State, but the whole country. He spoke of the learned men who had composed the faculty of the University, and feelingly alluded to their lives and labors in the field of letters and science. His allusions to the memory of the late President of the University, Hon. David L. Swain, were tender and touching, and the great love of and service to the State of this talented North Carolinian were eloquently brought out. The success of the beneficiary system was next alluded to. He, the speaker, said that when he was at Harvard the beneficiaries were the menirals of that institutiou, but he could say with pride, that at Chapel Hill all the students vied with each other to make the beneficiary forget his position, and they were treated with a greater degree of courtesy than any one else. The speaker then concluded his remaks by an earnest appeal to the House to come to the support of this noble institution which had shed upon the State such lustre through the eminent services of its graduates, &c.

Mr. Brown, of Davidson, offered an amendment which, in effect, gave the proceeds of the sale of said lands for the benefit of all the institutions of learning in the State. The yeas and nays were called, and the amendment was rejected by a vote of yeas 50, navs 50.

Mr. Speaker voted no. Ellison, col., offered an amendment that 5 acres in the southwestern part of the city of Raleigh, commonly called "Gallows Hill" be set apart and donated for educational purposes for the colored people.

Mr. Waugh moved to postpone the matter under discussion until 8 p. m.

On the call of Mr. McGehee, the

was rejected by a vote of 9 yeas and | a man's little finger at the butt, the 68 nays.
Mr. McGehee, the introducer of the bill, allowed Mr. Bennett his 30 the rules after

minutes allowed by the rules after the eall of the previous question. Mr. Bennett then occupied the floor and urged the passage of the bill in remarks of length. The yeas and nays were called and the bill passed its second readingyeas 58, nays 43. A communication was received

from the Public Treasurer, in response to a resolution of the House in regard to the correspondence on file in that office touching the adjustment of the The bill in relation to the Western Division of the Western North Carolina Railroad, was taken up and, on motion of Mr. Brown, of Mecklen-burg, made special order for to-mor-

row at 11:30 a. m. The bill for the election of two Supreme and two Superior Court Judges and a Superintendent of Public Instruction, was taken up. The amendment of the Judiciary Committee proposes to strike out that portion of the bill in relation to the Supreme Court Judges. The Committee's amendment was adopted.

Adjourned.

AID FOR THE UNIVERSITY .- Yesterday in the House of Representa-tives the bill directing the sale of public lands in and near the city of Raleigh for the benefit of the State University, passed its second reading. The bill provides that all the public lands in or near the city of Raleigh, except those now in possession of the charitable institutions, the Capitol Square, Executive Manson; and the St. Augustine Chapel, shall be sold under the supervision of a commission consisting of Geo. Gavis, of Wilmington, L. M. McCorkle, of Catawba, and Richard Battle. Jr., of Raleigh, the proceeds of which sale will be invested in United State bonds for the benefit of the University. The bill, as above stated, passed its second reading, after serious opposition on the part of the Republican side of the House. The speech of Mr. McGehee, of Person, in urging the bill was peculiarly effective, and was listened to with deep attention by the House. Mr. Bennett, of Anson, also made an eloquent speech

in behalf of the bill. . An amendment was once adopted to the bill donating to the colored people of the city, for educational purposes, that portion of public lands in the southwestern part of the city, known as "Gallows Hill." The greater part of the Democratic members supported the amendment, but through the influence of Mr. Bow-man, Republican, of Mitchell, a large number of Republican members, before the vote was announced, chang-ed their votes from the affirmative to the negative which operated to defeat the amendment. The colored people may thank Mr. Bowman for depriving them of a very valuable assistance towards educating their children. The bill will doubtless come up on its third reading to-day and will pass.

LUCY POWELL.—The readers of the

News will remember how fully we

exposed the infamous attempt on the

part of a negro woman in this city to kidnap and sell this young white girl to a life of shame, and how a member of the city police force lent his aid to the plot. From the fol-lowing from the Norfolk Landmark of Tuesday, it will be seen that Lucy has now gone to her friends in Ohio: "Among the passengers who arrived in Baltimore yesterday morning from Norfolk, Va., were Lucy Blackwell, a full blooded Indian woman, and a young white girl, Lucy Powell, who were en route for Cleaveland, Ohio, where Mrs. Blackwell has considerable property. The girl was aged nineteen years, of the blonde type, had very light hair, deep blue eyes, fair complexion and rosy cheeks. After leaving the Norfolk steamer they proceeded to Camden street Railway station, and from the affection bestowed upon the Indian wo-man by the white girl considerable curiosity was created in those who chanced to be in the ladies' reception room at the depot and witnessed the attention of the girl. The Indian woman finally stated to a lady that she was born in Florida, and was the daughter of a once noted Indian chief. Many years ago her father died, when she, with others of her tribe, removed to the interior of North Carolina, and at a later date she rem ,ved to Raleigh. There she became acquainted with a white lady who upon her deathbed bequeathed an infant, six months of age, and who grew up to be the young girl Lucy Powell. About six months ago the young girl was abducted from the Indian woman by a colored woman, assisted by a colored man, but she was rescued by friends and restored to her adopted mother. The mother spoke the English language well.

WIFE WHIPPING NOT ALLOWED IN NORTH CAROLINA-A GOOD DE-CISION AS FAR AS IT GOES.—The following case, State vs. Richard Oliver, recently passed when in the Supreme Court, does away with that barbaric idea that a man has a right to inflict personal chastisement upon his wife, under any circumstances. We give the matter in full: The defendant in the cause was

indicted in the Superior Court of the county of Alexander for whipping his wife.

Upon the trial, the jury rendered the following verdict: "We being sworn to speak the truth of and concerning the premises in the said indictment specified, do say, upon our oaths, that the defendant came home intoxicated in the morning after breakfast was over; got some raw bacon, said it had skippers in it, and told his wife she would not clean it; sat down and eat a little; threw the coffee-cup and coffee-pot in the corner of the house; went out, cut two switches, brought them in and threw them on the floor; told his wife that she had said if he did whip her she would leave; that he was going to whip her, that she and her damned mother had aggravated him near to death; and then whipped her with the switches. then whipped her with the switches. The husband struck her five licks, Clerks of Superior Courts and Justice's of the Peace, was taken up and passed its several readings.

On motion of Mr. Morehead, of of the call of Mr. Medence, the previous question was ordered.

The question recurred upon Ellison, with the branches on the son's amendment, and the yeas and nays being called the amendment leaves. One stick not half as large as

NO 135. other a little more than half as large. He held the hickory in both hands. He inflicted bruises on her arm which

remained for two weeks. She was not disabled from work by the blows. One witness swore she thought he struck as hard as he could. Two witnesses were present, one told defend-ant, after he had stricken her five licks across the shoulders and arms, to stop. Defendant stopped, saying to the witness, if he had not been there, he would have worn her out."

After this verdict, the judgment of the Court was pronounced by Judge Mitchell, from which judgment the defendant appealed to the Supreme Court, which has affirmed the judgment of the Court below as will be seen from the following opinion as seen from the following opinion as delivered by Justice Settle:

"We may assume that the old doc-trine that a husband had a right to whip his wife, provided he used a switch no larger than his thumb, is not law in North Carolina. Indeed the Courts have advanced from that barbarism until they have reached the position that the husband has no right to chastise his wife under any circumstances. But from motives of public policy, in order to preserve the sanctity of the domestic circle, the Courts will 1 ot listen to trivial complaints. If no permanent injury has been inflicted, nor malice, cruelty nor dangerous violence shown by the husband, it is better to draw the curtain, shut out the public gaze, and leave the parties to forget and forgive. No general rule can be applied, but each case must depend upon the cir-

cumstances surrounding it.
"Without adverting in detail to the
facts established by the special verdict in this case, we think that they show both malice and cruelty. "In fact it is difficult to conceive how a man, who has promised, upon the altar, to love, comfort, honor and

keep a woman, can lay rude and violent hands upon her, without having malice and cruelty in his heart. "Let it be certified that the judgment of the Superior Court is affirm-

A true copy. Test:
LEROY G. BAGLEY,
Deputy Clerk Supreme Court."

SUPREME COURT .- The Court met at the usual hour, all the Justices pre-sent. The following cases were taken up from the 6th Judicial District and

State vs, Daniel Collins and Alexander Blalock, from Johnston county. Attorney General for the State and Merrimon, Fuller & Ashe, for the defendants. W. M. and M. P. Person vs. Chas.

Batchelor for the defendants. The Court adjourned to meet again at the usual hour. DEER HUNTING .- Our friend W. F. Davis, the far farmed hotel man of Kittrells' Springs, has become quite a deer hunter. Davis is not only one of the best bird shots in the State, but has become one of the most ex-pert deer hunters. Two days since he killed a large buck, weighing two hundred and fifty pounds, while last week he killed one equally as large, if not larger. Parties in quest of game cannot find a better stopping place than Davis'. The county abounds

with game, and Davis keeps one of the best hotels in the South. SUPERIOR COURT.-Yesterday the Court met at 10 a. m., Judge Tour-

gee presiding.
The following civil causes were taken up and disposed of:
Flemming vs. Scarboro; judgment
for plaintiff. Upchurch vs. Crawford; verdict for

Blake vs. Warren; verdict for defendant. Elam vs. Collins; verdict for plain-Page vs. N. C. R. R; verdict for

EDITORIAL JOTTINGS.

The destitution at present existing in the city of New York is said to be

That old ghoul, Mrs. Stowe, has reached the climax of eulogistic infamy in the Underwood Memorial.

Montgomery Blair publishes a very forcible argument showing that Gen. Fitz John Portershould have another

Mr. Wheeler, of New York, charges that one thousand enlisted men of the army are employed in the houses of officers in Wasflington,

The announcement of the bankruptcy of Edwin Booth, the distinguished American tragedian, is generally received with regret. The majority of the one hundred

thousand children employed in factories and shops in New York and its suburbs, are said to be growing up in ignorance, daubed in mind and body. El Presidente of the Havana theatre

has, it seems, magisterial powers. The other night Verati, the tenor of the Lucca-Murska Opera Company, failed to make his appearance as Eluino in "Sonnambula" much to the disgruntlment of the officials, and was committed to prison for eight days by the functionary above allu-

Col. William D. Coleman, of Richmond, Va., Secretary of the Board of Commissioners of the State Sinking Fund, has been detected in defalcation and forgery. On Saturday night he was arrested at the Imboden House, when he made a desperate but unsuccessful effort to put an end to his life by cutting his throat. It is thought that the amount of the defalcation will reach over \$5,000.

Florence Nightingale, that splendid specimen of genuine womanhood, has written a letter advocating the adoption of the system of rewards and punishment in prison discipline. Each prisoner is allowed the benefit of his good conduct while in prison, and the character thus made is given force in determining the length of his sentence. The Legislature of Il-linois has recently adopted this idea, and the conduct of each prisoner is allowed to effect the length of his term of service.

A special dispatch to the Petersburg News says that after a careful count of the Senate, a majority can be obtained for the bill ordering a new election in Louisiana, provided the Democratic Senators will support it. Among those who are confidently counted as favoring the bill are Messrs. McCreary and Henderson, of Kentucky; Johnston, of Virginia; Davis, of West Virginia; Ransom, of North Carolina; Kelly, of Oregon; Cooper, of Tennessee, and Gordon, of

The reluctance shown by some Senators, upon the plea of an objection to Federal interference in mattors of State politics would have more force and effect if the Kellogg usurpation had not been set up by that interference. Under Durell's decree, supported by the bayonets of United States soldiers, a government not made by the people of Louisiana was foisted upon them, and it does seem that Congress should adopt the readiest and surest method of ridding them of the oppression. The present State government exists by reason of Federal interference. We can see no good reason why it should not be overthrown by the same power.

WE surrender our space to-day to the following thoughtful and expansive article from the Wilmington Journal. The subject is now under consideration in the General Assembly, and we respectfully invite the attention of the gentlemen of that body to the reasoning of the Journal upon the subject:

THE ELECTION OF THE STATE JUDI-CIARY.

A bill has passed the Senate, and is now pending in the House, providing for an election to fill vacancies in the Judicial Department. Justices Set-tle and Bynum, of the Supreme Court, and Judges Cloud, Moore, Albertson, and probably others of the Superior Court, have been appointed. by the Governor at various times to all vacancies caused by resignations and deaths. It is now proposed by the pending bill to fill these vacancies by an election by the people. The friends of the bill are opposed with the objection that the next election is not the proper one at which to fill these vacancies, but that the appointees hold their offices for the unexpired terms. That such is not the proper construction of the Constitution is to us very plain, and believing that it is the duty of the Legislature to provide for an election to fill these vacancies, we desire to present our views for their consideration.

It is necessary for a proper consideration of this question to examine first into the spirit of the Constitution itself. Article I, Section 2, reads: That all political power is vested in. and derived from the people; all gov-ernment of right originate from the people, is founded upon their will only, and is instituted solely for the good of the whole."

Section 28 of the same article reads: 'For redress of grievances, and for

amending and strengthening the laws, elections should be often held." These are the leading features of the Constitution and in obedience to these acknowledgements of their su-preme power all officers are elected by the people, and resort must be had to the people, the source of all power, for the election of officers as often as possible. Throughout the entire instrument, as we shall show, this absolute power of the people, is continu-ally acknowledged and to them is constantly referred all authority to chose their own officers.

As the Constitution provides that all vacancies in the Judical Department shall be filled "at the next regular election," as we shall see when we come to discuss that point, we shall first consider the time at which the Constitution fixes the "first regu-

lar election."
Article II., section 27, reads: "The terms of office for Senators and members of the House of Representatives shall commence at the time of their election; and the the term of office of those elected at the first election held under this Constitution shall terminate at the same time, as

if they had been elected, at the first nsuing regular election.' And the 29th section of this article

"The election for members of the General Assembly shall be held * *
* on the first Thursday in August,
in the year one thousand eight hundred and seventy, and every two years

thereafter." These sections are important as not only showing in what years regular elections are to be held, but because elections for all officers are ordered to be held "at the time and in the manner prescribed by law for the election of members of the General Assembly. Article Third, section one declares

that State officers shall be elected by

the people for four years.
Section twelve of this Article provides in case of the death of the Governor, or his inability from any cause to discharge the duties of his office, that the Lieutenant-Governor shall discharge the duties of the office unt. I the disabilities shall cease, or a new Governor is elected and qualified. This in keeping with the Constitu-

tion. The people elect the Lieutenant-Governor, and therefore he is empowered to discharge the duties of his new position for the unexpired term. There is no curtailment of the power of the people, as his commission comes directly from them. How different it is with the other

officers of the Executive Department. The very next section, thirteen, of this Article provides: "If the office of any of said offices (Secretary of State, Auditor, etc.,) shall be vacated by death, resignation, or otherwise, it shall be the duty of the Governor to appoint another until the disability be removed or his successor be elected and qualified. Every such vacancy shall be filled by election, at the first general election that occurs more than thirty days after the vacancy has taken place, and the person chosen shall hold the office for the remainder of the unexpired term."

The contrast between these two sections presents in the very strongest light the spirit in which the Constitution was conceived. The successor to the Governor, the Chief Executive officer of the State, holds his office for the remainder of the unexpired term, but when a vacancy occurs in any of the other State offices, although of less importance, the ap-pointer holds his office only until the first general election thereafter, be cause he is an appointee of the Governor, and does not receive his commission from the people at the ballot-box. These officers are made by the Constitution, the Governor's Council or Cabinet, and still he is not allowed to fill vacancie in his own political family, longer than the next general election. How very much more is the supreme power of the people acknowledged than in the Constitution

only to the approval of the Senate. There is still another feature of the Constitution, which pervades it throughout, manifesting the tenacity with which its authors held fast to their purpose of founding the Government upon the will of the people only. Every vacancy occurring in offices elected for two years is filled by appointment for the unexpired term, and every vacancy occurring in offices elected for four years or longer is all at by appointment until the next regular election only. The only exception to this rule is the Lieutenant Governor, who is elected by the people to discharge the duties of Governor in case there is a vacancy in that

of the United States by which the President appoints and dismisses his

Cabinet officers at pleasure, subject

Article IV, section 30, provides that in each county a Sheriff and Coroner shall be elected by the quali-fied voters thereof, * * * and shall hold their offices for two years. In each township there shall be a constable, elected in like manner by the voters thereof, who shall hold his office for two years. * * * In case of a vacancy existing for any cause, in any of the offices created by this section, the commissioners for the county may appoint to such office for

the unexpired term. Article VII, section 5, provides that in each township there shall be bien-nially elected a clerk and two Justices of the Peace, and Article IV, section 34, provides that when the office of Justice of the Peace shall become vacaut, the Clerk of the Superior Court for the county shall appoint to fill the vacancy for the unexpired term.

Now note the difference in officers

elected for more than two years. Article IV, sections 21 and 22, provide that a Clerk of the Superior Court shall be elected, who shall hold his office for four years. Section 29 provides that Justices of the Supreme Court shall be elected for eight years, and that Judges of the Superior Court shall also be elected for eight years. Section 29 provides that Solicitors shall be elected for each judicial district for four years. Section 31 reads as follows:

"All vacancies occurring in the offices provided for by this Article of the Constitution shall be filled by the appointment of the Governor, unless otherwise provided for, and the ap-pointees shall hold their places until he next regular election. Section 35 provides that in case the

office of Clerk of a Superior Court

shall become vacant, the Judge of the Superior Court for the county shall appoint to fill the vacancy until an election can be regularly held.
This contrast between officers elected for two years and those elected for longer periods, must strike every one, and seems to be conclusive. Where an office is only for two years the appointee holds for the unexpired term, because there is no "regular election" before the expiration of the term at which the people can elect a successor. But in every instance where the office is for a longer period, whenever a "regular election" is held before the expiration of the term, then the appointee holds, only until the "next regular election" as

can be regularly held" as in section 34 of the IV Article. The framers of the Constituion in order that this striking difference between filling vacancies in offices elected for two years and for longer periods should not be misunderstood not only used very expressive terms," for the unexpired term," and until the next regular election," but they used them in contiguous sections of the same article. "All vacancies occurring in offices provided for by this article of this Constitution, shall be filled by the appointment of the Governor, unless

in section 31, or "until an election

otherwise provided for, and the ap-pointees shall hold their places until the next regular election," reads section 31. Section 29 does prouide otherwise, not only for the appointing power, but for the duration of the term. County Commissioners appoint vacancies in the Sheriff's office. Superior Court Clerks appoint Justi-

The very difference in the words

used is consistent with the spirit of the entire Constitution, and what appears to be a marked constrast in the times for which these appointees are to hold their respective places is really in keeping with the leading and governing feature of the Constitution, that all power is vested in and derived from the people. In every case the appointee holds only until the "next regular election," when the people select at the polls their officers whether Judges, Auditors, Treasurers, Clerks, Sheriffs, Justices of the Peace or Coroners. All are referred back to the people at the very earliest mo-ment possible. No appointment lasts longer than the people can say at the bullot-box who shall make, int ri ret

we believe that if the Legislature does not provide for the filling of these vacancies they will be derilict in their duty, and we hope to see the bill receive the sanction of the House. It is a matter of the first importance, and the people will except their representatives to do nothing to con promis heir deare t rights and interests.

Last week Mr. S. Koiner, near Waynesboro, ordered an old oak to e cut down, remarking that the cutters would find a rock in the body of the tree, which he had put there fifty-four years ago, when he was a little boy returning from school one day. Sure enough when the tree was cut, in the heart of it was found imbedded, the identical rock which Mr. Koiner had put in the fork of the little sappling more than a half century ago. Staunton Vindicatar.

The mechanics of Memphis have determined to organize a joint stock association grocery and supply store. The success of the enterprise depends very much upon its management.

with burglars. The Rutherford Grange is increas-

ing rapidly. A negro woman recently died in Monroe aged 100.

The storm st Newbern on Sunday night was very severe.

Corn sells in the Rutherfordton market at 60 cents per bushel. Pneumonia is now the principal

disease prevailing in Charlotte. That proposed cotton factory in Wilmington is still discussed.

Wilmington bemourns the absence of wine sap apples in her market. The Quarterly Conference which recently met in Oxford, was largely attended.

The West-Carolina Record, Rutherfordton, has entered upon its second volume.

Madison, Rockingham county, is suffering from the depredations of petty thieves. The Wilmington police are to be

congratulated on having captured a thief the other night. The negroes of Oxford had a big

oyster supper and temperence meeting on lost Thursday. The Charlotte excursionists have

chartered a sleeping car through to New Orleans for the Mardi Gras. Tom Smith colored, was arrested in Granville county on last Thursday for stealing a horse from James A

Bullock.

Katie Putnam has created a blaze of excitement in Wilmington. The papers of that city says she has improved wonderfully.

The head of the editor of the Oxford Torchlight may be red, but it is level. He don't like complimentary letters unaccompanied with the sponds.

The Wadesboro Argus is creditably informed that a band of negro robbers are traversing Union and adjacent counties committing depredations.

At a recent meeting of the St. George and St. Andrews's Societies, in Wilmington, A. Sprunt was elected President; J. S. Kein, Sr., Vice-President; James Deems, Treasurer.

Mrs. David Hagar, who mysteriously disappeared a few days ago at Mount Mourne, Iredell county, has been found. She was at her father's where she had taken refuge from the brutality of her husband.

Says the Wilmington Journal of the 10th inst: "We saw yesterday, in Mr. George Honnet's jewelry store, on Market street, a beautiful silver water set, consisting of a pitcher, salver, two goblets and a slop bowl, which are to be presented to Capt. W. J. Calais, late Master Car Builder of the W. C. & A. R. R., by those who have so long been under his charge in the shops. The pitcher is inscribed: "Presented to Capt. W. J. Calais, by his former employes of the W. C. & A. R. R., Car Shops, Wil-mington, N. C."

MUSIC BY TELEGRAPH .-- A Connecticut inventor has recently per-fected an apparatus for recording, by means of electricity, the music played upon an organ or piano, so that brilliant improvisations may be accurately copied and afterwards played again from the notes. The apparatus was recently attached to the organ in a hall in New Haven, and was successfully used. The mechanical means by which the end desired is secured are ingenius, but the principle upon which the record of notes made is extremely simple. The oc-casional breaking and connecting of the electrical current consequent upon the touching of the several keys is sufficient however rapidly the changes may be, to record the striking of each key or combination, and, through an arrangement like that of the ribbon telegraph apparatus, to give the time with exactness.

How THEY FEED JURORS IN NEW ORLEANS.—The jury in a recent mur-der case in New Orleans, having been out for some time, returned to a crowded court room, it was supposed with a verdict. The foreman solemnly advanced, and handing the Judge a bundle wrapped in a coarse piece of brown paper requested him to brown paper, requested him to examine what sort of a dinner the city paid so much for, and what the uries were compelled to eat. Upon unwrapping the paper, a piece of very rotten meat was discovered, which emitted a most offensive smell, and which upon close investigation was discovered to contain a large number of inhabitants, which the cooking had not entirely deprive of life, and which were still squirming around with wonderful liveliness and activi-

In a debate in Congress on the army bill, General Butler stated that of every hundred men wounded in the late war thirty-three were wounded in the right arm. This, he alleged arose from the fact that they were compelled to raise the right arm in using the ramrod in loading their muskets.

Ex-Marshal Bazine's portriat has been removed from the Salle des Marchaux, in the Palace at Versailles, and, after being covered with a black cloth, it will be consigned to the archives of the Museu.a. This theatric effect might be improved by the addition of slow music and a calcium light.

Bishop Doggett, of Virginia, who has just returned from California, saw a wheat-field there seventeen miles long. When the owner plows it he starts the plows on one furrow and goes all day, and when night comes stops and camps out, and plows back the next day.

The word "imp" originally signified young man. Edward VI. is so styled in a letter of Cramer, and a young son of Dunley, Earl of Leicester, who was poisoned by his nurse, as is supposed, is described as an imp in the inscription on his tomb at

WM. R. GRIFFITH, of Baltimore, General Agent.

Petersburg, Va., December 17th, 1873. To the Farmers and Guano Dealers of North Carolina and Virginia: Gentlemen: To the mary of you with whom I am personally acquainted, I would say, that of go id results from GUANAHANI GUANO, I have not the shadow of a doubt. Ontaining, as it does, in such large amounts, the essentials for plant food, success from its application would seem certain. It being of animal origin, you will see at once that its largedients must be all a lable in the sil. Its nitrogen, from nitricacid, is the most available form known to chemistry; the other part, from undecomposed animal matter, is preferable to the vocatile salts in Peruvian Guano. I ask of each of you the kindness of a thorough examination of the accompanying analyses by two of the great chemists of the country. With respect, yours truly,

WM. R. GRIFFITH, General Agent.

THE COMPANY GUARANTEES THAT EVERY CARGO WILL BE ANALYZED BEFORE IT IS OFFERED FOR SALE.

GUARANTEED ANALYSIS. LETTER FROM PROF. WM. C. KERR, STATE GEOLOGIST OF NURTH AROLINA Raleigh, N. C., January 7th, 1874. Wm. R. Griffith, Esq., General Agent Guanahani Guano Company, Petersburg, Virginia:

Dear Sir: Dr. F. A. Genth, whose Analysis of the Guanahani Guano you have shown
the is Chemical Minerologis. to the Geological Survey, and has to superior as achemist.

I have no hesitation in endorsing any analysis from his laboratory. And I think the
sinalyse justifies his state rent that the substance examined by him is a VALUABLE
standard.

I A NURE.

From his report, and that of Prof. Wilson it is evidently a TRUE GUANO, both in origin and composition, and its action on crops may be expected to be the same in kind and in degree proportioned to its relative per centage of the valuable ingredients—Phosphoric Acid, Ammonia and Potash, that of the first being unusually high.

Yours truly,

W. C. KERR, State Geologist.

ANALYSES. The following analyses of different cargo s and samples by two of the leading chemists of the country, are given for the guidance of the public:
LETTER OF PROF. P. B. WIL-ON, LATE ASSISTANT OF BARON J. VON LIEBIG. CHEMICAL LABORATORY OF PROF. P. B. WILSON, No. 30 Second Street, Baltimore, December 1st, 1873,

CHEMICAL LABORATORY OF PROF. P. B. WILSON, No. 30 second street,
Baitimore, December 1st, 1873.

MAJ. N. M. TANNOR, President Guanahani Guano Company, Petersburg, Va.:
Dear Sir: I hale drawn samples of the Guano, as it has arrived in cargo lots, and find it exceedingly uniform in the amount of Phosphoric Acid it contains, namely, from 15 of 19 per cent. This is combined with Lime, and is of animal origin, and readily assimitive by plants. It contains potential ammonia and nitric acid, having a combined Nitroger value equal to rom 2 to 3 per cent. of ammonia, with the alkalies Potash and soda, and valuable propositions of sulphate of Lime. The whole forming a very desirable combination for all crops, and where applied to land, the crop receiving proper tillage, must, in my opinion, give as good results as any guano offered to the farmer.

Belne or animal origin, the organic matter has undergone partial decomposition, and it accessarily contains a valuable amount of Humbs, which makes its fertilizing power much greater than fertilizer which are compounded large y of Peruvian Guano, which, beyond its ammonia and small phosphatic value, has little or no power in absorbing from the atmosphere and retaining in the soil the movable elements absorbed by moisture and brought down by the rains, as the guano you are now placing upon the market All of the components of this Guano are very soluble in the soil, and pissess such physical properties as to render it at all times and it der all circumstances as in mediately invaliable plant food.

The late samples you sent me for analysis, from the deposit which you inform me you nite do ship from, show a decease in the phosphatic value, but a large increase in its nitrges components. I think, however, form previous conservations of cargoes, that you may reasonably expect, that cargoes taken from where these ware ples were drawn, will

ay reasonably expect, that cargoes taken from where these san ples were drawn, will naterially improved in the saline compounds, (phosphates alkalis and magne-ia. Respectfully, &c., P. B. WILSON, Analytical and Consulting Chemist.

Respectfully, etc., CHEMICAL LABORATORY OF PROF. P. B. WILSON, No. 30 SECOND ST.,
Baltimore, November 9th, 1873.

Viaj. N. M. Tannor, President Guanahani Guano Company, Petersburg, Va.,
DEAR SIR: he samples of Guanahani Guano you handed me for analysis, marked No. 8. Chart F, contains: Moisture (dried at 212°F)...... Organic Matter.....

P. B. WILSON, Analyt. and Consulting Chem. Respectfully, etc., UNIVERSITY OF PENNSYLVANIA, WEST PHILADELPHIA, 19th, 1873.

WEST PHILADELPHIA, 19th, 1878.

Maj. N. M. Taannor, Petersburg, Va.,
DEAR SIR: In compliance with your request, I have analyzed sample of "Guanahani Guano," and have made additional exam nation of an average sample from a lot of 300 ons, the result of which, I beg to embrace in the following. The Guano is a brownish powder, with lumps of combinations of lime with Carbonic. Phosphoric and Nitric acids, it contains a considerable quantity of water (about 20 per cent.), and when dried is a paler brown powder. The Guano is evidently of animal origin, and the minute bones, which were discovered in the same, indicate that it is the result of the decay of bats mice, &c. The quantity of organic matter, which is still present, is about 12 per cent., and this ields about 22 per cent. of ammonia. A portion of the nitrogen is present, as nitric acid, of which about 3 per cent. wa found. All the nitrogen present would be equivalent to about 32 per cent. of ammonia. The phosphoric acid in the Guano, about 124 per cent., equal to 27 per cent. of bone pho phate. A considerable quantity of the phosphoric acid. however, is present, as so-called neutral phosphate of lime, which, being slightly sole ble in water, renders the Guan as quick in its action, as a corresponding quantity of superphosphate would do. The small per centage of pot sh, which was found in the acalysis, adds to its value.

From all the experiments which I have made of the Guanahani Guano, no doubt can xist that it is a valuable manue.

Yours truly,

UNIVERSITY OF PENNSYLVANIA.

Magnesia.
Nitrogen, equivalent to Ammonia.
Yours, truly,
F. A. GENTH. WHOLE AMOUNT OF AMNONIA

CERTIFICATES:

STATE OF MARYLAND, TREASURY DEPARTMENT,
Comptroller's Office, Annapolis, September 29th, 1878.

E. T. Whoth, Esq., Baltimore, A.d.:
Dear ir: Yours in regard to the duano was received some time ago, and as I know very little, personally, about the effect it had, I laid it aside until I could go home and in quire. I learn that it did improve the wheat to som: extent, I did not apply any other Guano. I applied

Bone Dust, and I learn your Guano was of about the same efficacy in fertilizing, so far as the appea ances of the crep indicated.

Please senume a bill for Guano, and I will send you a check.

I * m, very truly, in haste, yours, &c.,
LEVIN WOOLFORD.

My E. A. DUNLAP.

I ar Sir: The extraordinary character of the season (a rain almost every day,) puts it wholly out of my power te form an estimate of your Guano. The crops of c-rn and retabagas to which it applied, look ve.y fine.

Yours, truly.

WM. 8MITH. Bethel Academy, Fauquier County, Va., July 24th, 1873. Mr. E. A. DUNLAF.

Dear Sir: I used your Guano on my wheat last fall, and I am highly pleased with it. I hink it is as good as the high priced Guanos. I have a good paying crop of wheat, and the bests and of grass I ever had, and this is the opinion of those who have seen both, notwithstanding the unfavorable winter and early spring. I shall use it again this fall. Yours.

[This crop of wheat, 25 bushels to the acre, was noticed in the Warrenton and Alaxandris papers, as the finest crop in Mr. Smith's county.]

BUANAMINI GUARO! I used your Guano on wheat last year, and co

Bothel Academ, Fauquier County, Va., Morember 12. 1882. E. A. Durk. P. Req..

Dear sir: If I could have made collections, I certainly would have used two tens of the Guano you sent me this fall.

I consider it better for wheat than any other Guano that has been used in this county since the war. M. C. BLACKWELL Respectfully yours,

Mr. E. A. DUNLAP,

Dear Sir: The Guano purchased from , ou. was used upon corn by the side of one of
the best ammoniated soluble phosphates in the market. The quality of the land was
the same as was the quantity of guano and phosphate used. The corn where the Grano
w s used appeared to start sooner, and in the fall was fully ten inches higher and ripened earlier than where the Phosphate was used.

Very respectfully, e.c.,

Late firm of Neale, Harris & Co., Commission Marchants.

We, the undersigned, have sold your Guano for two seasons. Those that have purched are buying again, and are pleased with the results.

L. KE!! Usi & CO., 119 Hiller street, Baltimore.

Cheston, Near Queenstown, Md., August 18th, 1877.

Lear Sir: I have your inver of 4th inst., making inquiries at 6 the results from application of the Guano which you sent me last fai. I applied it at the rate of 170 pounds per scre—the same quantity as of the other fertilisers I was then using. The wheat throughout the field bore much the same general appearance, with perhaps something in favor of your Guano. The grain of my crop on that field was generally of fine quality, and I cannot say that I observed any perceptible difference in its appearance.

The result in quantity, (the most important point,) I regret not to be able to give you. Threshing my crop by steam power, my attention was occupied at many points at the same time, and on one of these occasions this particular parcel of wheat was threshed before I was aware of it, and without any note of its comparative yield. I therefore annot pronounce post ively in its favor, over others; but, from its general appearance, I judge it quite equal to other standard fertilises of established reputation.

Very respectfully yours,

Will Hanky Decourcy.

E. A. DUNLAP, Esq.,
T e Guano i had of you last Spring, I used on corn. It produced a first rate crop. I used about 200 lbs. per acre.

E. D. HOOPES Of E. D. Hoopes & Co., 226, 228 & 230, Penn. Averue, Baltimore, Md. Dealers in Grain Country Produce, Guanos, &c. Somerset County, Md., Westover, August 8th, 1873

Baltimore, November 17th, 1872.

E. T. WROTH, Esq., Baltimore. Md.,

Dear sir: Yours of the 4th received and contents noticed. You must excuse me for not reporting to you sooner the result of the experiment with your Guano. I seeved it by the side of * * * * * 's Raw Bone Super-Phosphate, at the rate of 150 ibs. to the acre, of each. Whilst growing, I, no rany to whom I showed it, could not perceive the least difference. The yield was equally good—about 25 bushels to the acre, I consider it equally as good as * * * * * * 8, in every respect. Please inform me the price, as I intend using some on wheat this fall.

Very respectfully yours, Mount Airy, Carroll County, Md., November 18th, 1878. Moth Airy, Carrolt County, and, Invovember 18th, 1878.

In reply to yours of the 12th, will say, the farmers can say but little, as yet, in regard to Guanahani Guano. But Maj A. G. Davis, who used one bag, by the side of several other fertilizers, says, so far, the Guanahani looks better than any of the others. All parties say, so far, they can see no difference in their grain wherever it is up sinflicient to judge. By the pring, I can give you a more satisfactory report. Hoping to have the pleasure of a visit from you, soon,

I am. truly yours.

I am, truly yours, P. S.-I have commenced making a stir for the Spring trade. W. R. GRIFFITH, Esq.,

Dear Sir: 1 outs of the 12th inst., was re-elved on yesterday, and, in compliance with your request, I hasten to reply. I purchased half ton of Guanahami Gus. o, from Measts. Rowlett & Tannor, lat of October, 1878, to use upon my what crop, as an experiment. I applied it 20: ibs. per acre. The wheat was seeded from the 10th to the 17th of October. I was very careful in the application, leaving two strips of land through the field; one of an acre, the other two acres. The one acre strip was manured with a seed of the two acres trip was in tobacco, heavily manured with stable manure and ** * * * * * Tobacco Fertilizer. I also added a strip of very poor land (stubble) on one end, three-fiths of an acre. Upon this I applied 100 lbs. of Guanahami, and also moistened the wheat and rolled it in the Guano. (I mean the wheat sewn upon this three fithes rip.) The season has been favorable, and the young wheat is looking very well; and the upon the narrow strip of poor land, equally as good as upon the heavily manued tobacco land. I am satisfied hat the Guano is acting upon this strip of wheat, as the land was very poor. I do not think that it would be well for me to make a positive assertion just yet, bu will carejully note the result and let you hear from me again.

Yours respectfully.

THOS. F. RIVES. San Marino, Dinwiddle Co., Va., November 15th, 1872.

Kingston, Dinwiddle Co., Va., Nevember 26th, 1873.

Messrs, Rowlett & Tannon,
Dear Sirs. In reply to your inquiries in regard to the Gusnahani Guare, which I purchased last summer, I can only say that I applied it on my wheat crop, sowing it by adcast and plowed it in with the wheat. So far I am vary much pleased with the Guano. Where I used it, the wheat looks better than any I have seen, and my neighbor a who have seen it, consider it so. I applied it the first of October, and it shows very plainly over the wheat where there was nothing used.

Very respectfully,

JOHN J. MITCHELL. [Note.—Mr. Mitchell has since ordered 10 tons for his Spring crops]

Millstone Landing, Md., December 1st, 1873.

Dinwiddle County, Va., November 21st, 1873. Measrs. McL.waine & Co., Petersburg. Va., Gentlemen: I used the Guananan Guano, purchased of you, on wheat at the rate of 90 lbs. pracre, on corn land. The wheat is a oking well. I think it will prove a good fertilize.

Respectfully,

Sussex County, Va., December 12th, 1878.

Near Sirs: I used on my wheat, sowed about the lat of October, a half ton of Guanahani Guano, and a far I am very much pleased with its action. Where I used the Guanahani the wheat is look ng remarkably well—a great deal better than the wheat sown on a pea fallow. Very respectfully,

Messrs. Bishop & Branch,
Sirs: You ask memy opinion of the Guanshani Guano I puechased of you last fall.
I used the suano on my wheat, but owing to the unfavorable fail for the growth of wheat, it would be imposs be for any manure to show its strength fully. Fowever, I think the guan oa good ertilizer, from the fact, that the wheat looks as well as it does where a well known fertilizer was used that cost nearly double the money.

Respectfully,

A. G. JORDAN. Prince George County, Va., December 18th, 1873.

Petersburg, Va., December 16th, 1873.

WM. R. Griffiih, General Agent of the Guanahani Guano Company,

Dear sir In reply to your enquiry about the action of the Guanahani Guano on my
wheat crop, I would say, up to the present time it is looking very well.

Yours truly,

SAMUEL H. JONES,

Prince George County, Va. Broad Run Station, Fanquier County, Va., December 4th, 1873.

Broad Run Station, Fauquier County, Va., Desember 4th, 1872.

Mr. E. A. Dunlar,

Dear Sir: I let one row without your fertilizer, and used it on the next row. I used at the rate of 200 pounds to the acre. I had the corn care ully gathered separate, and found the result as follows: From the Guano row I shelled one bushel and nearly a half gailon; from the row without guant I got a half bushel and not quite a quart; making fully nouble where I used guano. The growth of stalk was not proportionately heavy—the strength seemed to go to the grain. I this k it an excellent Spring fertilizer. The land I tried it on was quite thin. Yours, &c.,

Poplar Mount, Greensville County, Va., December 17th, 1872.

Mes 'rs. Rowlett & Tann's

Gentlemen: Yours of the 15th is received. You ask "How I like the Guanahani Guano, so far?"

In reply I have to say that I used five bags last fall, experimentally. I applied four bags to wheat at the rate of 200 pounds to the acre. I used the same quantity (20 pounds) on winter oats. The wheat was not sown until about the 20th of October, but has already a healthy, vigorous blade. The present indications lead me to believe that it is decidedly superior to any of the sup r-phosphates.

The winter oats we est win the last of September. In the application to this crop, I have, in consequence of earlier seeding, a better opportunity of observing the effect of the Guanahani Guano. Here it is most marked and decided. It reminds me of former d ys, whon, for an oderate outlay of money, the farmer purchased the pure Chineha Island. (unadulterated) Peruvisin Guano.

I wish to try some of this Guano next year on cotton and tobacce.

I am, very truly yours,

GEORGE W. FIELIC.

The Company recommend an application of from 200 to 250 pounds per acre, but not over the larger amount. As it will be impossible to bring but few thousand tons to this country in time for the spring trade, orders must be sent tan early day to secure it.

For further information apply at the office of the GUANAHANI GUANO COMPANY. PETERSBURG, VIRGINIA.

NOON DISPATCHES.

Miscellaneous News. PHILADELPHIA, Feb. 10.-To-day the case containing the bodies of the Siamese Twins was opened in the presence of a number of eminent medical gentlemen. The embalming process has not been entirely satisfactory in its results, owing to the fact that when the bodies were subjected to the embalming process de-composition was already far advanced, at the same time it was believed that the main points of interest in the case will be fully elucidated by autopsy. A number of medical genn were present at the college to-night, and steps were taken to commence operations. Plaster casts of the bodies have been taken.

ST. Louis, Feb. 11 .- In the National Council of Grangers the report of the Committee on Commercial Relations endorses the resolution asking Congress to restrict the time and royalty allowed patentees, and recommends that seven years be fixed for patentees to enjoy the sole benefits of patents, and that they be allowed 55 per cent. upon the cost of

TOPEKA, Feb. 11.-The House of Representatives to-day, by a vote of 7 to 26, passed a resolution requesting the county attorney to take steps for bringing Ex-Senator Pomeroy to

the Superior Court of this city, the case of Edwin Lyle against Cuyahagy Lodge, I. O. O. F., for libel, the jury returned a verdict for the plain-tiff for \$10,000. Lyle it was claimed, failed to deliver money entrusted to him for the widow of a deceased member of the lodge, and the lodge issued a circular denouncing his dishonesty, &c., whereupon Lyle entered suit for damages.

The Cheap Transportation Conven-Paris Letter—The New Woman's Liquor Movement—An embroglio.

NEW YORK, Feb. 11 .- At a meeting of the Cheap Transportation Association yesterday, information was given that the People's Freight road would soon be built across the continent, which would be managed in the interests of the people, and that after the work is fairly begun it would be completed in three years. The President of the Produce Exchange has been requested by many members to convene that body to consider what steps can be taken for the relief of the poor of this city.

recent suspension of the greatest of French Catholic papers, L'Universe, at the instance of Prince Bismarck, furnishes a striking instance of how complete is the subservancy of the French Government to German

A special dispatch from Cincinnati giving some details of the woman's movement against liquor dealers in that State says: At Waynesville, an order has been issued by by its Mayor, T. T. Dodson, to the Marshal requiring him to disperse all bands of women found congregating in the streets or on the sidewalks. He declares his intention to have no more sidewalk or saloon prayer meetings in his village, and the ladies, backed by the money of many wealthy temperance people, are no less determined to evince their intention to hold just as many meetings and offer just as many prayers as they think

The Poor Indian Again on the War Path.

Омана, Feb. 11.—The excitement over the Indian news is becoming great. There is no doubt but that in consequence of the failure of agents to provide for them, the Indians are leaving their reservations for the purpose of providing for themselves at the expense of the settlers, herders and ranchmen. The following is of ficially received by Gen. Rugles, from the commandant at Sidney, Neb. : 'Wheeler and Merchant, reliable ranchman, state that a party of Indians drove them six miles last night. They abandoned their herd and came to Sidney. This ranche is near Court House Rock, and I am authorized to send cavalry to drive these Indians across the platte. No news from Morton's party, the commanding officer at Sidney was directed by telegraph to send out all hisavailable cavalry to Lawrence's Fork as far as Redington's ranche. Gen. Reynolds, commanding Fort DeRussel, has been instructed by telegraph to send two cavalry companies under reliable officers to the same place, thence to thoroughly scout the country and drive the raiding Indians within reach of North of Platte river and to take six days cooked rations, and sixty rounds of ammunition with them.'

More About the English Elections. London, Feb. 11-6 A. M.-About 254 Conservatives and 180 Liberals have been returned to the House from England; 15 Conservatives and 36 Liberals from Scotland, and 21 Con-servatives and 44 Liberals and House Rulers from Ireland. There was much rioting at Chesterfield and Barnsley yesterday. Many police-men were injured. Conservatives have been elected to Parliament from Wigtonburgher, defeating the Liberal candidate, Right Hon. Geo. Young, Lord Advocate for Scotland, who held a seat in the late Parlia-

Congressional News—Army Bill—Major Merrill Hauled over the Conf-Revenue reizures in North Carolina &c.—A Sweeping Reduction of the Army Intended.

The Committee of the Whole, an amendment to the army bill, placing two additional members on the War Claims' Commission, passed.

Bromberg, of Ala., moved an amendment that the two additional commissioners provided for in the

ment that the army shall not be used in aid of the pretended State Government, known as the Kellogg Government in Lousiana, or so as to inter fere in the elections of that or any other State.

that the amendment proposed a new legislation, and was not in order. Sypher, of La., hoped that the amendment would be admitted, for the Kellogg Government had troops enough to thrash out the Rebel

enough. The point of order was sustained, and the amendment was excluded. The Committee then rose and reported the bill, and the House proceeded to vote on the amendments. The first vote was on the amendment offered by Young, of Ga, extending the time for the presentation of claims to the 1st of November, 1875. The amendment was agreed to, yeas 131, nays, 104. All the other amendments were agreed to in bulk, and the bill

Supervisor Cobb reports to the Commissioner of Internal Revenue the seizure of several illicit stills in operation in East Tennessee with tubs of beer mash, wagons, meal. Several of the stills were destroyed, it being impossible to carry them off. At a distillery of a man named Campbell, an armed force of citizens attacked the officers and took posses-

explained his resolution of yesterday calling upon the President to inform the Senate whether any officer of the army had received money or fees from the Legislature of South Carolina for service rendered the State. He said he was morally convinced that Lewis Merrill, of the 7th U.S. Cavalry, received from the State of South Carolina \$21,400 for his agency in securing the arrest and conviction of persons engaged in the Ku Klux outrages, and that the said Merrill aided in lobying the bill through the South Carolina Legislature, giving \$35,000 to persons who should secure

such arrests and convictions. Mr. Howe reminded Mr. Bayard that the government had distributed \$100,000 among the army officers for the arrest of Jeff. Davis, whose offence was perhaps less than that of the perpetrators of Ku Klux out-

Mr. Scott defended Major Merrill as an accomplished officer, and believed he deserved the reward which he may have received.

A RE YOU GOING TO PAINT?

Ist. It has been thoroughly tested by chemists, and over 150,000 owners of reside ces throughout the United States for the last six years, and pronounced by them to be the most durable paint known.

2d. For beauty and retention of color it tands far ahead of any other. Buildings have been painted with it in par, and partly with the best of other paints, both in the in erior and on the sea coast, and in no case has it been excelled for beauty or permanency of color.

3d. It is economical, and its cost is no more than the best lead and oil, and being far more durable (it wearing about twice as long as the best of any other,) and beautiful, warrants the assertion that for a period of twenty years it will save the consumer fully 50 per cent.

4th. It is in liquid form and ready for use. Purest white or any desired shade, can be obtained without subjecting the buyer to the annoyance of purchasing oil, pigments, cooring matter, dryer, &c. It is easily spread, flows freely from the brush, clings firmly to every substance it may be applied upon. For wood, brick, fron, or for any painting purpose where durability, beauty and preservative properties are requisite, it stands unrivalled. Though composed of the most indestructible materials known to science, an analysis of the AVERIAL CHEMICAL PAINT shows it to be (unlike lead and most of the other paints) free from poison. It will not blacken or discolor by the action of the sulphurous gasses so prevalent on our marshy rivers and coasts.

DIRECTORS.

FEATURES AND ADVANTAGES. It is emphatically a Home Company. Its large capital guarantees strength and Its rates are as low as those of any first-

class company.

It offers al desirable forms of insurance.

Its funds are invested at home and circulated among our own people.

No unnecessary restrictions imposed upon residence or travel.

Policies non-forfeitable after Two years. Its officers and directors are prominent and well-known North Carolinians, whose experience as businesss men, and whose worth and integrity are alone sufficient guarantees of the Company's strength, solence and success

MISCELLANEOUS.

The recent invention of J. B. UNDER-WOOD, of Fayetteville, N. C., is the great-

LABOR SAVER OF THE AGE. With ONE MAN and ONE HORSE, it does the work of from SIX to TWELVE men and from TWO to FOUR horses. It bars both sides, weeds, chops and dirts the cotton at the same time. After the chopping, it is converted into a most excellent. CULTIVATOR,

for use throughout the season. It has taken the Gold Medal at the Georgia state Fair, as the most important and latest improvement in Agricultur-1 Implements, and the first primium everywhere it has been exhibited. It bears the highest testimonials of its thorough, practical success.

Price of Machine with attachments, \$35, and freight.
